National Register of Historic Places Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in National Register Bulletin, *How to Complete the National Register of Historic Places Registration Form*. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional certification comments, entries, and narrative items on continuation sheets if needed (NPS Form 10-900a).

1. Name of Property

historic name Lowe Mill and Mill Village Historic District

other names/site number _____

2. Location

street& number Triana Blvd. SW, 10th Ave. SW, Summer St. SW, & Governor's Dr.

☐ not for publication

city or town Huntsville

☐ vicinity

state Alabama code AL county Madison code 089 zip code 35805

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act, as amended,

I hereby certify that this X nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60.

In my opinion, the property X meets does not meet the National Register Criteria. I recommend that this property be considered significant at the following level(s) of significance:

 national statewide X local

Signature of certifying official _____

_____ Date

_____ Title

_____ State or Federal agency/bureau or Tribal Government

In my opinion, the property meets does not meet the National Register criteria.

Signature of commenting official _____

_____ Date

_____ Title

_____ State or Federal agency/bureau or Tribal Government

4. National Park Service Certification

I, hereby, certify that this property is:

entered in the National Register

determined eligible for the National Register

determined not eligible for the National Register

removed from the National Register

other (explain:) _____

Signature of the Keeper _____

_____ Date of Action

Triana Blvd., SW	2101-2410

Summary Paragraph

The Lowe Mill and Mill Village Historic District is a planned textile mill and mill village located in the southwestern portion of Huntsville. Unfortunately, unlike the Dallas, Lincoln, and Merrimack mill villages in Huntsville, the plan for Lowe is obscured to a fair degree by later development. The district is generally bounded to the north and west by two major streets, Governor's Drive to the north and Triana Boulevard SW to the west. Tenth Avenue SW generally forms the southern boundary and the eastern boundary is defined by the rear property lines of the resources fronting along Summer Street SW. The district encompasses approximately 142 acres and includes 392 resources of which 293 are contributing and 99 are noncontributing.

Narrative Description

The district began development in 1900 when the first portion of the extant mill facility was built, which was expanded in 1902, 1914, and 1928 when a three story addition was constructed with wide eaves and decorative wood brackets (Inv.#s 215-216, Photos #1-3). It remains one of only two extant textile mills in Huntsville and is the most intact of the two. The other mill, Lincoln Mill, retains only a portion of its historic mill complex. At the same time the mill was begun, Lowe Mill investor, board member, and planner Tracy Pratt began to build the residential village, which developed continually through the 1940s. By then, it was complete with the mill complex, a general merchandise store (founded circa 1882 before the mill and rebuilt circa 1925, Inv. #388, Photo #15), worker and middle manager's housing, churches, a 1915 Mission style YMCA (Inv. #87, Photo #14), small stores and commercial buildings, and the Art Deco style Centre Theatre (circa 1945, Inv. #387). Scattered infill development continued to occur through 1961 when the West Huntsville Baptist Church was constructed (Inv. # 385, Photo #20).

The mill facility occupies the southeast corner of the district bounded on its north side by Eighth Avenue SW and by Seminole Drive SW on the west. The southern boundary of the mill facilities, and the entire district, is Tenth Avenue SW where the residential village lies between First Street and the west side of Sixth Street. The western boundary of the district is primarily along Triana Boulevard (formerly Seventh Street), although the district extends one block west of Triana Boulevard to Eighth Avenue to include the McCormick Building (West

Huntsville YMCA, Inv. #87, Photo #19) and several houses as well as the circa 1895 Tracy Pratt Office (Inv. #188, Photo #17).

The residential portion of the district is anchored between the mill at the far southeast corner and by a concentration of most of the district's non-industrial and non-residential resources on its far west side. There, within one and one-half blocks of Triana Boulevard are all (with the exception of the mill itself) of the district's most architecturally important resources. Included are the J. D. Brown General Merchandise (Inv. #388, Photo #15); the Centre Theatre (Inv. #387, Photo #14); and a church with a crenellated roof and squared central loggia (Inv. #85).

Between the mill and the Triana Boulevard SW area are 349 residential mill houses laid out in a mostly scattered, random pattern with the exception of several concentrations of pyramidal roof duplexes on Ninth Avenue SW (see description for Type B, below; Inv. #s 141, 143, 145, 147, 149, 155, 157, 159, 161, and 163, Photo #5), T-plan houses also on Ninth Avenue SW (Inv. #s 144, 146, 150, 151, 158, 160, 162, and 166, Photo #7); duplexes on Eighth Avenue SW (Inv. #s 37-45, 47-48, 66-67, 69-70, 76, and 80, Photos #22-23); and circa 1915 to circa 1925 shotgun houses along Boardman and Summer Streets SW and Seminole Drive SW (Inv. #s 5, 9, 11, 13, 15, 18-27; 193-197, 200, 203, 205-207, 209, 211; 349, 352, and 361, Photo #33). The largest collection of houses that can be grouped into a single type are described below under Type A (71 examples) and there are smaller groupings of other recognizable types (typically less than five examples each). Otherwise, the district assumes an eclectic layout and pattern containing a wide diversity of styles, although all are restrained in design and reflective of typical mill housing of the period.

The earliest houses were built at approximately the same time as the earliest mill facilities and adjacent to the mill along Ninth and Tenth Avenues. The Tracy Pratt office predates the village (Inv. #188, Photo #17) and the J. C. Brown General Merchandise store (Inv. #388, Photo #15) was established prior to the mill, although the present building appears to have been constructed circa 1925. Subsequent development occurred north and west of the mill with the latest development (circa 1935-1961) being essentially in the center of the district between Seventh Avenue and Governor's Drive and between First Street SW and Triana Boulevard SW.

Fifty-eight resources (15%) were constructed prior to 1920 including seven representing the Type A house form (Inv. #s 39, 41, 43, 45, 47, 48, and 67, Photos #22-23); sixty-four resources (16%), in addition to the McCormick Building (Inv. # 161, Photo #19), were constructed between 1920 and 1925; and 160 (41%) were constructed between 1926 and 1945. By 1921, there were approximately 200 residences in the village mostly north and west of the village forming, at that time, an irregular inverted L shape; there were few, if any mill houses north of Seventh Avenue. During the next few years, until the late 1920s, growth continued to evolve north and west, by the early 1950s the village attained its present generally rectangular shape.

Residential resources account for 282 of the district's 293 contributing resources (96%). Of these, 208 are classified as single dwellings, 72 as duplexes, and one as an apartment building. The majority of these are one story in height, with only three contributing resources being one and one-half stories (Inv. #s 242, 263, and 307) and two being two stories (Inv. #s 154 and 165). The predominant residential building type is frame, historically clad with wood novelty siding or weatherboards, although there are scattered brick, stucco, concrete block, and stone veneer residential buildings. Examples of the latter are more prevalent after circa 1935.

Historic windows are typically 6/6, 2/2, or 4/4 double hung, and there are a wide variety of roof styles including front gable, side gable, pyramidal and hip for residences constructed mostly with asphalt but also with tin especially on many shotguns. There are also a few residences that retain patterned composite shingle roofs (Inv. #s 365-367, Photo #9).

Aside from double hung windows and simple detailing, most have one or two brick or stucco chimneys and front porches with simple wood columns, although some also have brick piers. Renovations that occurred to many houses in the 1940s and early 1950s include the installation of composition shingle siding, wrought iron porch posts and railings, the construction of side or rear additions (particularly on shotguns), and the replacement of windows typically with horizontal 2/2 sash and occasional picture windows.

During the 1960s and 1970s many houses were refaced with aluminum siding, and later, in the 1970s through the present, with vinyl siding. In recent years, a number of houses have had their windows replaced with synthetic windows. Only a few resources have enclosed, or partially enclosed, porches. Of the 99 noncontributing resources, 52 (52%) were constructed in or before 1961 and have been altered to the point where they no longer retain integrity. Typically such resources have seen both the replacement of their siding and windows and often additions as well. The remaining noncontributing resources were constructed after 1961.

Nonresidential buildings account for only eleven of the district's contributing resources (4%). These include the mill and mill office (Inv. #s 215-216, Photos #1-3), the 1915 stucco McCormick Building (Inv. #87, Photo #19), the Centre Theatre (circa 1945, Inv. #387, Photo #14) and the circa 1895 Tracey Pratt Office (Inv. #188, Photo #17). There are also two contributing commercial buildings (Inv. #s 167, and 376, Photo #10) in addition to the J. C. Brown General Merchandise Company (Inv. #388, Photo #15). There are also three churches (Inv. #s 85, 180, and 385, Photos #12 and #20).

Inventory

For descriptive purposes, two standardized designs of mill housing in the district for resource types numbering in excess of ten examples are outlined below. The inventory will identify individual resources by type where applicable and will describe only alterations to or variations from its standard type.

Type A (71 examples, Photos 22-23, 30, and 32) – Type A dwellings are typically one-story frame duplexes with a rectangular core with a side gable roof and often a rear extension. The 4 bay wide façade is characterized by two centrally-located adjacent doors flanked to either side by a 6/6 window and typically with a central chimney, a brick pier foundation, and a shed roof porch. Some were built in a modified form with no rear extension.

Type B (14 examples, Photos #4-5) – Type B dwellings are typically one-story frame duplexes with pyramidal roofs, a rectangular or square plan, a four bay façade with two 4/4 windows and two doors, and a partial or full width shed porch.

|-----|---|-------------------|----------|-----------------|
| 001 | Boardman St. SW, 2002 | Duplex, Not Named | ca. 1935 | Contributing |
| | Type A duplex modified with no rear addition, and with an original central faux gable. It is faced with asphalt shingles, and there is a tin roof, brick foundation, 1/1 double hung wood windows, large wood porch columns, and an original wood and glass door. | | | |
| 002 | Boardman St. SW, 2004 | Duplex, Not Named | ca. 1935 | Contributing |
| | Type A duplex modified with two original faux front gables. There is ca. 1960s vinyl siding, a brick foundation and 1/1 double hung wood windows. | | | |
| 003 | Boardman St. SW, 2005 | House, Not Named | ca. 1955 | Noncontributing |
| | One story ranch style house with hip with side gables asphalt roof, vinyl siding, brick foundation, 1/1 double hung wood windows, and entry porch with a hip roof. | | | |
| 004 | Boardman St. SW, 2006 | Duplex, Not Named | ca. 1935 | Contributing |
| | Type A weatherboard duplex with a concrete block foundation, replacement 1/1 double hung metal windows (ca. 1965), and wrought iron porch posts. | | | |
| 005 | Boardman St. SW, 2007 | House, Not Named | ca. 1915 | Contributing |
| | One story shotgun with a c. 1940s side extension. It is faced with ca. 1960s vinyl siding, and there is a hipped asphalt roof, interior poured concrete chimney, concrete block foundation, 6/6 double hung wood windows, and front porch. | | | |
| 006 | Boardman St. SW, 2008 | Duplex, Not Named | ca. 1935 | Contributing |

Type A duplex with ca. 1960s vinyl siding, concrete block foundation and large wood porch columns.

- 007 Boardman St. SW, 2009 House, Not Named ca. 1945 Contributing
One story bungalow with asphalt shingles, front gable asphalt roof, concrete block foundation, 3/1 double hung wood windows, and partial front porch with wood posts.
- 008 Boardman St. SW, 2010 Duplex, Not Named ca. 1935 Contributing
Type B duplex with ca. 1980s vinyl siding, concrete block foundation, and 2/2 double hung wood windows.
- 009 Boardman St. SW, 2011 House, Not Named ca. 1925 Contributing
One story shotgun with ca. 1975 vinyl siding, hip tin roof, one central brick chimney, brick pier with concrete block infill foundation, and 2/2 double hung wood windows. There is also a full-facade recessed front porch with chamfered wood posts.
- 010 Boardman St. SW, 2012 Duplex, Not Named ca. 1935 Contributing
Type A duplex, modified with no rear addition, with concrete block foundation, 3/1 double hung wood windows, and pairs of large wood porch columns.
- 011 Boardman St. SW, 2013 House, Not Named ca. 1915 Contributing
One story shotgun with a ca. 1940s side extension. It is faced with vinyl siding (ca. 1985), and there is a hip tin roof, central brick chimney, concrete block foundation, ca. 1965 1/1 double hung wood windows, and full-facade recessed front porch with chamfered wood posts.
- 012 Boardman St. SW, 2014 House, Not Named ca. 1945 Noncontributing
One story minimal traditional house with a ca. 1975 brick façade, side gable asphalt roof, concrete block foundation, 8/8 double hung wood windows, and an entrance porch.
- 013 Boardman St. SW, 2015 House, Not Named ca. 1915 Contributing
One story shotgun with ca. 1965 cement shingle siding, gable on hip asphalt roof, central brick chimney, concrete block foundation, 3/1 double hung wood windows on the sides, and c. 1965 1/1 double hung metal windows on the front. There is also a full front porch.
- 014 Boardman St. SW, 2018 Duplex, Not Named ca. 1935 Contributing
Type A duplex with ca. 1965 aluminum siding and concrete block foundation.
- 015 Boardman St. SW, 2019 House, Not Named ca. 1925 Contributing
One story shotgun with hipped roof, faced with ca. 1985 vinyl siding, 6/6 double hung wood windows, brick foundation, and full front porch with simple square wood posts.
- 016 Boardman St. SW, 2020 Duplex, Not Named ca. 1935 Contributing
Type A duplex with wood novelty siding, concrete block foundation and 2/2 double hung wood windows.
- 017 Boardman St. SW, 2021 House, Not Named ca. 2000 Noncontributing
Modern one-story brick veneer dwelling with a front pedimented gable roof.
- 018 Boardman St. SW, 2100 House, Not Named ca. 1915 Contributing
One story shotgun with a ca. 1945 side extension with ca. 1985 vinyl siding, side hip asphalt roof, one central brick chimney, brick pier foundation with concrete block infill. There are replacement horizontal 2/2 double hung wood windows (ca. 1955) and a recessed front porch with wood posts.
- 019 Boardman St. SW, 2102 House, Not Named ca. 1915 Contributing

One story shotgun with hip asphalt roof, ca. 1985 vinyl siding, concrete block foundation, 2/2 double hung wood windows, and full front porch with wood columns.

- 020 Boardman St. SW, 2103 House, Not Named ca. 1925 Noncontributing
One story shotgun with a ca. 1945 side extension. It is faced with ca. 1975 vinyl siding, and there is a front gable tin roof, central brick chimney, concrete block foundation, and ca. 1965 horizontal 2/2 double hung metal windows and one front "picture" window. Replacement gable porch with metal supports (ca. 1975)
- 021 Boardman St. SW, 2104 House, Not Named ca. 1915 Contributing
One story shotgun with a ca. 1945 side extension with ca. 1975 aluminum siding, hip asphalt roof, concrete block foundation, ca. 1945 2/2 double hung wood windows, and a wrap around porch with wood columns and a concrete block wall.
- 022 Boardman St. SW, 2105 House, Not Named ca. 1925 Contributing
One story shotgun with wood novelty siding and a hipped tin roof, two interior brick chimneys, brick pier with concrete block infill foundation, 3/1 double hung wood windows, and a front porch with square wood columns.
- 023 Boardman St. SW, 2106 House, Not Named ca. 1915 Contributing
One story shotgun with a ca. 1945 side extension with ca. 1975 vinyl siding, hip tin roof, one interior brick chimney, concrete block foundation, 4/4 double hung wood windows, and a full front porch.
- 024 Boardman St. SW, 2107 House, Not Named ca. 1915 Contributing
One story shotgun with a ca. 1945 side extension. It is faced with ca. 1945 cementitious shingles, and there is cross gable roof, brick foundation, 2/2 double hung wood windows, and a front porch.
- 025 Boardman St. SW, 2108 House, Not Named ca. 1915 Contributing
One story shotgun clad with ca. 1960 aluminum siding with ca. 1945 side extension with a hipped roof with cross gable, one central brick chimney, concrete block foundation, and 3/1 double hung wood windows. There is also a full front porch with a tapered wood supports and a brick apron wall.
- 026 Boardman St. SW, 2109 House, Not Named ca. 1925 Contributing
One story shotgun with a large ca. 1975 side extension. It is faced with ca. 1975 vinyl siding, and there is a hipped asphalt roof, concrete block foundation, ca. 1955 replacement horizontal 2/2 double hung metal windows and a picture window, and a front porch
- 027 Boardman St. SW, 2110 House, Not Named ca. 1915 Contributing
One story shotgun with wood novelty siding, a hipped tin roof, one interior brick chimney, concrete block foundation, 3/1 and 4/4 double hung wood windows, and full front porch.
- 028 Boardman St. SW, 2111 House, Not Named ca. 1945 Noncontributing
Extensively altered one-story frame dwelling with a cross gable asphalt roof.
- 029 Boardman St. SW, 2200 House, Not Named ca. 1925 Contributing
One story bungalow with aluminum siding exterior (ca. 1955). There is a continuous concrete block foundation and 4/4 and 6/6 double hung metal windows.
- 030 Boardman St. SW, 2204 House, Not Named ca. 1940 Contributing
One story bungalow with c. 1985 synthetic siding, front gable roof, full front gable porch, and modern replacement windows (ca. 2000)
- 031 Boardman St. SW, 2210 Duplex, Not Named ca. 1945 Contributing

One story minimal traditional-style duplex with ca. 1965 aluminum siding, side gable, one interior brick chimney, concrete block foundation, partial front porch with a shed roof, and horizontal 2/2 double hung wood windows.

- 032 Boardman St. SW, 2212 House, Not Named ca. 1925 Contributing
One story dwelling with replacement plywood siding (ca 1975), side gable roof, central front gable porch, concrete block foundation, and 3/1 double hung wood windows.
- 033 Eighth Ave. SW, 2604 Commercial Building, Not Named ca. 1965 Noncontributing
One story free standing concrete block and brick veneer commercial building with hip roof; continuous concrete block foundation and fixed wood windows.
- 034 Eighth Ave. SW, 2606 House, Not Named ca. 1910 Contributing
One story frame shotgun with a hipped industrial metal roof with a side gable addition (ca. 1945) to the west; concrete block foundation; 6/6 double hung wood windows; full facade front porch with wood posts on brick piers and a lattice apron wall.
- 035 Eighth Ave. SW, 2607 House, Not Named ca. 1965 Noncontributing
One story ranch style house with hip asphalt roof, brick foundation, and 2/2 double hung metal windows.
- 036 Eighth Ave. SW, 2608 Apartments, Not Named ca. 1975 Noncontributing
One story brick and weatherboard apartment building with 2/2 horizontal double hung wood windows and a brick foundation.
- 037 Eighth Ave. SW, 2700 Duplex, Not Named ca. 1925 Contributing
Type A duplex with ca. 1975 vinyl siding, tin roof, concrete block foundation, and ca. 1960 2/2 horizontal double hung wood windows.
- 038 Eighth Ave. SW, 2701 Duplex, Not Named ca. 1925 Contributing
Type A duplex with ca. 1985 vinyl siding, asphalt and tin roof, concrete block foundation, and 1/1 double hung metal window (Photo #23).
- 039 Eighth Ave. SW, 2702 Duplex, Not Named ca. 1910 Contributing
Type A duplex with ca. 1985 vinyl siding, concrete block foundation, and modern wood posts at porch.
- 040 Eighth Ave. SW, 2703 Duplex, Not Named ca. 1925 Contributing
Type A duplex with ca. 1965 synthetic siding, concrete block foundation, and 6/6 double hung wood windows (Photo #23).
- 041 Eighth Ave. SW, 2705 Duplex, Not Named ca. 1910 Contributing
Type A duplex with ca. 1965 with aluminum siding, asphalt roof, concrete block foundation, and ca. 1955 wrought iron porch posts (Photo #23).
- 042 Eighth Ave. SW, 2706 Duplex, Not Named ca. 1925 Noncontributing
Type A duplex with a concrete block foundation; replacement aluminum windows and replacement vinyl siding
- 043 Eighth Ave. SW, 2707 Duplex, Not Named ca. 1910 Contributing
Type A duplex with ca. 1995 vinyl aluminum siding, and a concrete block foundation (Photos #22-23).
- 044 Eighth Ave. SW, 2710 Duplex, Not Named ca. 1935 Noncontributing
Extensively altered Type A duplex.

- 045 Eighth Ave. SW, 2711 Duplex, Not Named ca. 1910 Contributing
Type A weatherboard duplex with an asphalt roof, concrete block foundation, and ca. 1950 horizontal 2/2 double hung wood windows (Photos #22-23).
- 046 Eighth Ave. SW, 2712 House, Not Named ca. 1925 Noncontributing
One story house with ca. 2000 vinyl siding, side gable roof, stucco foundation, and a ca. 2000 attached garage and 1/1 double hung metal windows.
- 047 Eighth Ave. SW, 2713 Duplex, Not Named ca. 1910 Contributing
Type A weatherboard duplex with a tin roof, concrete block chimney, ca. 1955 horizontal 2/2 double hung wood windows, wood porch floor and square wood porch posts, and an original 3/1 wood and glass front door (Photo #22).
- 048 Eighth Ave. SW, 2715 House, Not Named ca. 1910 Contributing
Type A dwelling with an asphalt roof, replacement aluminum siding (ca. 1970), single wood 8/8 window and replacement (ca. 1945) picture window (Photo #22).
- 049 Eighth Ave. SW, 2800 House, Not Named ca. 2000 Noncontributing
One-story brick veneer duplex with a hipped roof
- 050 Eighth Ave. SW, 2800 House, Not Named ca. 2000 Noncontributing
One-story brick veneer duplex with a hipped roof
- 051 Eighth Ave. SW, 2801 Duplex, Not Named ca. 1925 Contributing
One story front-gable dwelling with asphalt roof, ca. 1990 vinyl siding, and 3/1 windows.
- 052 Eighth Ave. SW, 2805 Duplex, Not Named ca. 1935 Contributing
One story front-gable duplex with asphalt roof, plain weatherboard siding, 2/2 windows, and two entrances at facade.
- 053 Eighth Ave. SW, 2806 House, Not Named ca. 1915 Contributing
One story frame dwelling with front gable industrial metal roof (ca. 2000), applied aluminum siding (ca. 1965), brick pier foundation with concrete block infill, 6/6 paired double hung wood windows, and a full-facade hipped porch with one bay enclosed and metal supports (ca. 1965).
- 054 Eighth Ave. SW, 2808 House, Not Named ca. 1945 Contributing
One story dwelling with ca. 1975 aluminum siding, front gable, 6/6 double hung windows with replacement picture window at facade (ca. 1950), and a concrete foundation.
- 055 Eighth Ave. SW, 2809 House, Not Named ca. 1945 Contributing
One story dwelling with front gable roof, replacement board and batten siding (ca. 1975), 4/4 windows, and concrete block foundation.
- 056 Eighth Ave. SW, 2810 House, Not Named ca. 1945 Contributing
Type N bungalow with ca. 1985 vinyl siding, front gable, stucco foundation, and ca. 1975 double hung windows.
- 057 Eighth Ave. SW, 2811 House, Not Named ca. 1925 Contributing
Type N bungalow with ca. 1985 vinyl siding, front gable, stucco foundation, and ca. single and double 4/4 double hung windows.
- 058 Eighth Ave. SW, 2812 House, Not Named ca. 1925 Contributing
One story dwelling with front-gable rood, wood novelty siding, full facade hipped porch with wood posts, and 3/1 windows.

- 059 Eighth Ave. SW, 2813 House, Not Named ca. 1935 Contributing
One story gable front house, less than full façade gable porch with wood posts, replacement vinyl siding (ca. 1995), concrete block foundation, single and double 6/6 double hung windows.
- 060 Eighth Ave. SW, 2814 House, Not Named ca. 1935 Noncontributing
One story L-plan bungalow with a cross gable roof, one interior stucco chimney, wood novelty siding, concrete block foundation, and horizontal 2/2 double hung wood windows (ca. 1955). An extended ca. 1975 garage addition to the west obscures the overall form of the house.
- 061 Eighth Ave. SW, 2815 House, Not Named ca. 1935 Contributing
One story bungalow with front gable asphalt roof with exposed rafter ends, brick pier foundation with concrete block infill, less than full facade front gable porch that enclosed ca. 1990, and single and double 4/4 double hung wood windows.
- 062 Eighth Ave. SW, 2817 House, Not Named ca. 1935 Contributing
One story bungalow with front gable asphalt roof with exposed rafter ends, , ca. 1975 aluminum siding, brick pier foundation with stucco infill, gable entry front porch, and replacement horizontal 2/2 double hung wood windows (ca. 1955).
- 063 Eighth Ave. SW, 2902 Duplex, Not Named ca. 1945 Contributing
One story duplex with c. 1965 composite siding, concrete block foundation, replacement fixed wood windows lca. 1965), and a recessed entrance porch
- 064 Eighth Ave. SW, 2904 Duplex, Not Named ca. 1935 Noncontributing
One story frame dwelling with a front-facing gable roof, full facade hipped porch with wood posts, and replacement vinyl siding and windows. Noncontributing due to extent of alterations.
- 065 Eighth Ave. SW, 2906 House, Not Named ca. 1945 Noncontributing
One story minimal traditional house with ca. 1975 aluminum siding, side gable roof, concrete block foundation, entry stoop, central brick chimney, and synthetic replacement windows. Noncontributing due to extent of alterations.
- 066 Eighth Ave. SW, 2908 Duplex, Not Named ca. 1935 Contributing
Type A duplex, modified with no rear addition, with one central concrete block chimney, concrete block foundation, and single & double 3/1 double hung wood windows.
- 067 Eighth Ave. SW, 2909 Duplex, Not Named ca. 1915 Contributing
Type A duplex with ca. 1950 composite siding, concrete block foundation, 1/1 and 6/6 double hung wood windows, and replacement porch columns (ca. 1975).
- 068 Eighth Ave. SW, 2910 Apartment, Not Named ca. 1985 Noncontributing
Modern one story apartment building with a gable roof and aluminum windows.
- 069 Eighth Ave. SW, 2911 Duplex, Not Named ca. 1925 Contributing
Type A duplex with a front gable projection, concrete block foundation, applied vinyl siding (ca. 1985), and ca. 1955 horizontal 2/2 double hung wood windows.
- 070 Eighth Ave. SW, 2912 Duplex, Not Named ca. 1945 Contributing
Type A duplex with composite siding(ca. 1950), concrete block foundation, replacement shed porch with wood posts (ca. 1985),and 3/1 double hung wood windows.
- 071 Eighth Ave. SW, 2913 House, Not Named ca. 1945 Contributing

One story minimal traditional house with ca. 1975 aluminum siding, side gable roof, concrete block foundation and 1/1 double hung wood windows.

- 072 Eighth Ave. SW, 2914 House, Not Named ca. 1925 Contributing
One story gable front duplex with asphalt roof, concrete block foundation, applied vinyl siding (ca. 1995), and 3/1 vertical as well as some ca. 1995 1/1 replacement windows.
- 073 Eighth Ave. SW, 3000 House, Not Named ca. 1945 Contributing
One story minimal traditional house with ca. 1985 synthetic siding, side gable roof, concrete block foundation, 3/1 double hung wood windows, and a central entrance stoop.
- 074 Eighth Ave. SW, 3002 A&B House, Not Named ca. 1935 Contributing
One story gable front bungalow with front half gable and cross gable addition to east (ca. 1960), 3/1 and replacement horizontal 2/2 (ca. 1960) double hung wood windows, concrete block foundation, and a full facade recessed porch with wood supports on brick pedestals.
- 075 Eighth Ave. SW, 3004 Duplex, Not Named ca. 1925 Contributing
One story frame dwelling with cross gable asphalt roof with central gable dormer, less than full facade porch with tapered wood supports on brick pedestals and apron wall, single 4/4 and double 3/1 windows, and replacement synthetic siding (ca. 1975).
- 076 Eighth Ave. SW, 3005 Duplex, Not Named ca. 1925 Contributing
Type A duplex with one central stucco chimney, ca. 1975 vinyl siding, concrete block foundation, and ca. 1955 horizontal 2/2 replacement double hung wood windows.
- 077 Eighth Ave. SW, 3006 Duplex, Not Named ca. 1945 Contributing
One story gable front bungalow, ca. 2000 vinyl siding, concrete block foundation, 3/1 windows, and and a full hipped porch.
- 078 Eighth Ave. SW, 3007 House, Not Named ca. 1935 Noncontributing
One story gable front bungalow with ca. 1975 vinyl siding, concrete block foundation, replacement windows (ca. 2005), and front porch with wrought iron posts. Noncontributing due to extent of alterations.
- 079 Eighth Ave. SW, 3009 House, Not Named ca. 1935 Contributing
One story bungalow with ca. 1965 aluminum siding, brick pier foundation with concrete block and brick infill, and 1/1 double hung wood windows.
- 080 Eighth Ave. SW, 3010 Duplex, Not Named ca. 1935 Contributing
Type A duplex with a poured concrete foundation, replacement synthetic siding (ca. 1980), 3/1 double hung windows, and a decorative brick porch wall.
- 081 Eighth Ave. SW, 3014 House, Not Named ca. 1945 Contributing
One story minimal traditional house with ca. 1985 vinyl siding, side gable roof, concrete block foundation, 6/6 double hung wood windows, and a less than full facade shed porch.
- 082 Eighth Ave. SW, 3016 House, Not Named ca. 1965 Noncontributing
One story brick veneer dwelling with a hipped roof; faces west onto Sixth Street but has a Eighth Ave. address.
- 083 Eighth Ave. SW, 3100 House, Not Named ca. 1925 Contributing
One and one half story house with side gable roof with a central gable dormer, full facade shed porch with tapered wood supports on brick pedestals, replacement wood siding (ca. 1971), brick foundation, and 1/1 double hung wood windows.

- 084 Eighth Ave. SW, 3102 House, Not Named ca. 1945 Contributing
One story L-plan bungalow with ca. 1970 aluminum siding, one end brick chimney, concrete block foundation, and ca. 1970 fixed wood windows.
- 085 Eighth Ave. SW, 3105 West Huntsville Christian Church ca. 1945 Contributing
One story stucco church with two story crenellated towers at either side of its facade flanking a recessed 2-story entrance bay with a stepped parapet; narrow round arched windows centered at each tower with rectangular infilled openings above; modern central entrance below a circa 1965 aluminum canopy, two small octagonal windows above canopy with a square infilled opening centered above; round arched windows at side elevations; two large additions to west (ca. 1965).
- 086 Eighth Ave. SW, 3210 Industrial Building, Not Named ca.2000 Noncontributing
One story industrial metal building.
- 087 Eighth Ave. SW, 3214 McCormick Building ca. 1915 Contributing
Two story stucco building with a rear L wing to west and a cross gable roof with an off-center front gable; one story side gable wings flank core to either side; projecting one-story shed entrance bay below cross gable with recessed entrance with double-leaf doors with sidelights; 6/6 window with and without sidelights at 1st floor with 6/6 windows above. This building is also historically known as the McCormick Y and the West Huntsville YMCA.
- 088 Eighth St. SW, 2409 House, Not Named ca. 1925 Contributing
Type A duplex with replacement vinyl siding (ca, 1985), less than full facade shed porch with wood supports on brick pedestals, and 4/4 windows.
- 089 Eighth St. SW, 2411 House, Not Named ca. 1925 Contributing
Type A duplex with replacement vinyl siding (ca, 1980), less than full facade shed porch with metal; supports (ca. 1960), and replacement horizontal 2/2 windows (ca. 1960).
- 090 Eighth St. SW, 2413 Commercial Building, Not Named ca.1980 Noncontributing
Modern one story industrial metal building with shed roof.
- 091 Fifth St. SW, 2204 House, Not Named ca. 1955 Noncontributing
One story bungalow with ca. 1975 aluminum siding and vinyl siding, poured concrete foundation, horizontal 2/2 double hung wood windows and a picture window, and a side porch with square wood columns.
- 092 Fifth St. SW, 2205 House, Not Named ca. 1965 Noncontributing
One story minimal traditional with a hip roof, ca. 1985 vinyl siding, poured concrete foundation, and horizontal 2/2 windows
- 093 Fifth St. SW, 2300 House, Not Named ca. 1935 Contributing
One story gable front bungalow with wood novelty siding, continuous concrete block foundation, and single and double 3/1 double hung wood windows.
- 094 Fifth St. SW, 2301 House, Not Named ca. 1945 Contributing
One story minimal traditional with side gable roof and ca. 1980 vinyl siding, poured concrete foundation, and 3/1 and replacement horizontal 2/2 (ca. 1960) double hung wood windows.
- 095 Fifth St. SW, 2303 Duplex, Not Named ca. 1925 Contributing
One-story side gable dwelling with replacement vinyl siding (ca. 1985), single and double 6/6 windows, less than full facade shed porch, and concrete block foundation.

096	First St. SW, 2006	House, Not Named	ca. 1925	Contributing	One story gable front and wing dwelling with a cross gable roof, weatherboard siding, replacement windows (ca. 1985).

Two story house with a pyramidal roof with front gable and cross hip at projection at the rear bay of the west elevation, 2/2 double hung wood windows, replacement vinyl siding (ca. 1985), and less than full facade shed porch with wood pillars.
- 166 Ninth Ave. SW, 2813 House, Not Named ca. 1915 Contributing
One story pyramidal form house with front-facing gable wing at the east bay of its facade, replacement novelty siding (ca. 1975), concrete block foundation, 9/9 and 1/1 double hung wood windows, and less than full facade porch with tapered wood supports on brick pedestals and apron wall.
- 167 Ninth Ave. SW, 2900 Commercial Building, Not Named ca. 1945 Contributing
One story free standing concrete block and stucco commercial building with a stepped parapet front, concrete block foundation, and fixed metal windows (ca. 1960).
- 168 Ninth Ave. SW, 2906 Clayton Amusement ca. 1945 Noncontributing
One story freestanding concrete block commercial building with a front gable roof, fixed metal windows (ca. 1980) with original brick sills, and a concrete block foundation.
- 169 Ninth Ave. SW, 2908A House, Not Named ca. 1925 Contributing
One story side gable dwelling with a small front gable wing at the east bay of its facade, brick veneer at west bays of facade, replacement vinyl siding elsewhere (ca. 1985), and double 6/6 windows and a tripartite picture window at facade.
- 170 Ninth Ave. SW, 2908B House, Not Named ca. 1925 Contributing
One story side gable dwelling with a small side gable wing at the rear bay of its west elevation, replacement vinyl siding (ca. 1985), and double 6/6 windows.
- 171 Ninth Ave. SW, 2910 House, Not Named ca. 1935 Contributing
One story gable front house, replacement composite siding (ca. 1960), concrete block foundation, and replacement 1/1 windows (ca. 1960)
- 172 Ninth Ave. SW, 2912 Duplex, Not Named ca. 1925 Contributing
Type A duplex, replacement aluminum siding (ca. 1975), concrete block foundation, and one story detached wood garage.
- 173 Ninth Ave. SW, 2914 House, Not Named ca. 1945 Contributing
One story minimal traditional house with a side gable roof, replacement synthetic siding (ca. 1980), and 6/6 windows.
- 174 Ninth Ave. SW, 2916 House, Not Named ca. 1955 Noncontributing
One story minimal traditional house, replacement vinyl siding (ca. 1985), brick foundation, and replacement windows (ca. 1985),

- 175 Ninth Ave. SW, 3000 Joy M. B. Baptist Church ca.1965 Noncontributing
Modern one story gable front brick veneer church with brick veneer front gable addition.
- 176 Ninth Ave. SW, 3004 House, Not Named ca. 1925 Contributing
One story gable front bungalow with replacement vinyl siding (ca. 1985), one tall end brick chimney, brick foundation, 6/1 and 6/6 double hung wood windows, and a full porch with wood posts on brick pedestals and apron wall.
- 177 Ninth Ave. SW, 3008 Commercial Building, Not Named ca. 1985 Noncontributing
Modern one story metal industrial building with a gable roof.
- 178 Ninth Ave. SW, 3101 House, Not Named ca. 1925 Contributing
One and one-half story side gable house with a large central gable dormer, replacement composite siding (ca. 1960), concrete block foundation, double hung wood windows, and a full front porch.
- 179 Ninth Ave. SW, 3103 House, Not Named ca. 1925 Noncontributing
One story side gable house with second floor addition to east (ca. 1975), replacement aluminum siding (ca. 1975), full facade shed porch with wrought iron posts, concrete block foundation, and 3/1 double hung windows on the 1st floor and 1/1 double hung wood windows on the 2nd floor. Noncontributing due to the extent of alterations.
- 180 Ninth Ave. SW, 3104 West Huntsville United Methodist Church ca. 1950 Contributing
One story brick veneer gable front church on a raised basement, side gable wing at rear bay of west elevation, central steeple, entrance bay gable porch, round arched metal casement windows with colored glass, and an octagonal window at the gable end. Building with a different footprint is shown on a 1949 Sanborn map.
- 181 Ninth Ave. SW, 3106 House, Not Named ca. 1955 Contributing
One story minimal traditional house with hipped roof, composition shingle siding, concrete block foundation, and horizontal 2/2 double hung wood windows.
- 182 Ninth Ave. SW, 3107 Apartments, Not Named ca. 1975 Noncontributing
Modern one-story L-shaped brick veneer apartment complex.
- 183 Ninth Ave. SW, 3110 Commercial Building, Not Named ca. 1925 Noncontributing
Much altered one story commercial building with a front-gable roof concealed by a shaped parapet now clad with metal, replacement stone veneer and windows at facade, and replacement siding at side elevations.
- 184 Ninth Ave. SW, 3204 House, Not Named ca. 1915 Contributing
One story pyramidal form house with a gable roof, modern gable front addition at northern bay of facade (ca. 1975), less than full facade arcaded shed porch with wood posts, wood siding, and 3/1 windows,
- 185 Ninth Ave. SW, 3211 Duplex, Not Named ca. 1925 Contributing
Type A duplex with replacement composition shingle siding (ca. 1965), 3/1double hung wood windows, and a concrete block foundation.
- 186 Ninth Ave. SW, 3213 Duplex, Not Named ca. 1925 Contributing
Type A duplex with replacement aluminum siding (ca. 1970), replacement 2/2 double hung wood windows (ca. 1955), and wrought iron porch posts. The left bay door has been removed.
- 187 Ninth Ave. SW, 3215 Duplex, Not Named ca. 1910 Noncontributing

Two story duplex with a spraddle roof and a brick foundation. Major ca. 1975 renovation included replacement aluminum siding, 6/6 double hung aluminum windows, and round fluted vinyl-clad porch columns. Noncontributing due to the extent of alterations.

One story modified T-plan house with a cross gable asphalt shingle roof, shed porch at east side of front, replacement composite board siding (ca. 1970), concrete block foundation and replacement horizontal 2/2 windows (ca. 1955).
- 375 Tenth Ave. SW, 2812 Duplex, Not Named ca. 1925 Contributing
Type B duplex with central concrete chimney, replacement composite shingle siding (ca. 1960), concrete block foundation, and replacement horizontal double hung wood windows (ca. 1955).
- 376 Tenth Ave. SW, 3102 Commercial Building, Not Named ca. 1925 Contributing
One story freestanding brick commercial building with parapet front, flat roof, a brick foundation, a central entrance flanked to the west by storefront windows and to the east by a garage door.
- 377 Tenth Ave. SW, 3206 Duplex, Not Named ca. 1935 Contributing
Type A duplex with 3/1 windows.
- 378 Tenth Ave. SW, 3208 Duplex, Not Named ca. 1935 Contributing
Type A duplex with 3/1 windows.
- 379 Tenth Ave. SW, 3210 House, Not Named ca. 1935 Noncontributing
Altered Type A duplex with replacement siding and windows, enclosed porch (ca. 1990).
- 380 Triana Blvd. SW, 2101 Commercial Building, Not Named ca.1970 Noncontributing
One story free standing concrete block commercial building with a pyramidal roof, concrete block foundation, and fixed wood windows.
- 381 Triana Blvd. SW, 2103 House, Not Named ca. 1925 Contributing
One story gable front house with an asphalt roof and one interior stucco chimney, less than full facade gable porch with pared wood posts, replacement composite shingle siding, and 3/1 windows.
- 382 Triana Blvd. SW, 2105 Commercial Building, Not Named ca.1975 Noncontributing
Modern one story industrial metal building with a flat roof with a front asphalt mansard.
- 383 Triana Blvd. SW, 2109 Commercial Building, Not Named ca.1985 Noncontributing
Modern one story industrial metal building with a front gable roof concealed behind a flat parapet.
- 384 Triana Blvd. SW, 2111 Duplex, Not Named ca. 1945 Contributing
Type A duplex, modified with no rear addition, replacement aluminum siding (ca. 1965), concrete block foundation, and 4/4 double hung wood windows.
- 385 Triana Blvd. SW, 2211 West Huntsville Baptist Church ca. 1961 Contributing
One story yellow brick church with Renaissance Revival influences, front gable roof with an extended gabled pediment with a central arch, decorative brick, arched aluminum sash windows with stained glass, brick foundation, a two story yellow brick ancillary addition with double hung wood windows and a flat roof to the north and a modern ancillary addition to the south.

Archaeology

An archaeological assessment of the study area was not completed as part of this project. However, given the nature of the area's history, there is potential that subsurface remains could provide additional information about the historical development of the site.

8. Statement of Significance**Applicable National Register Criteria**

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing)

- ☒ A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- ☐ B Property is associated with the lives of persons significant in our past.
- ☐ C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- ☐ D Property has yielded, or is likely to yield, information important in prehistory or history.

Areas of Significance

(Enter categories from instructions)

Industry

Architecture

Period of Significance

1900-1961

Significant Dates

N/A

Significant Person

(Complete only if Criterion B is marked above)

N/A

Cultural Affiliation**Architect/Builder****Criteria Considerations**

(Mark "x" in all the boxes that apply)

Property is:

- ☐ A Owned by a religious institution or used for religious purposes.
- ☐ B removed from its original location.
- ☐ C a birthplace or grave.
- ☐ D a cemetery.
- ☐ E a reconstructed building, object, or structure.
- ☐ F a commemorative property.
- ☐ G less than 50 years old or achieving significance within the past 50 years.

Period of Significance (justification)

The period of significance for the resource is 1900 to circa 1961, reflecting the period from the construction of first mill building in the complex to the construction of the last of the major public buildings within the district, the West Huntsville Baptist Church (Inv. # 385).

Criteria Considerations (explanation, if necessary)

N/A

Statement of Significance Summary Paragraph

(provide a summary paragraph that includes level of significance and applicable criteria)

The Lowe Mill and Mill Village Historic District is locally significant under National Register criterion A in the area of Industry and under criterion C in the area of Architecture. Lowe Mill was constructed beginning in 1900 and soon became one of Huntsville's major industrial facilities. The company began constructing housing for its mill workers soon afterward along a grid of streets that extended to the west and north of the mill. While some scattered rental housing was constructed adjacent to the company-owned houses prior to the mill's closure in 1937, much of the area in the northwest portion of the district represents development that occurred as the area transitioned from a traditional mill village to a neighborhood of workers employed in other industries. This transition began with the mill's closing and accelerated after the conversion of the mill into a shoe factory in 1945. The mill complex remains as the most intact of only two surviving historic textile mills in Huntsville. Both the houses constructed by the mill and the later housing illustrate early to mid-twentieth century residential building typologies found in Huntsville's working class neighborhoods. The Centre Theater, the churches and the commercial resources are also representative of the types of public buildings constructed to serve these neighborhoods.

Narrative Statement of Significance(provide at least one paragraph for each area of significance)**Industry**

The Lowe Mill complex is significant in the area of industry as it represents the most intact of only two such complexes surviving in Huntsville. The other mill, Lincoln Mill, retains only a portion of its historic mill complex. Following the Civil War, the South struggled to transition its economy, in part, from agricultural to industrial. Between 1880 and 1890, in fact, all the southeastern states experienced a boom in the development of their textile industries when the number of textile mills increased from 161 to 239 and the number of spindles and looms in operation rose from 553,940 to almost 1.6 million (Stephens, p. 13). Safford Berney's Handbook of Alabama of 1892 records twenty-five cotton textile mills in Alabama for that year, four of which were located in Madison County, the largest number of mills in any one county in the state during that year (Ibid.). Lowe Mill was a major facet of Huntsville's twentieth century industrial development and operated from circa 1900 through 1937. The complex was acquired by the Genesco Shoe Manufacturing Company in 1945, which operated the facility until 1978.

Architecture

The Lowe Mill and Mill Village Historic District contains a significant collection of mill housing typologies that are consistent with one or more of Huntsville's other three mill village historic districts and which are representative of Southern mill housing in general. These include the double pen [Type A in this nomination], shotgun, bungalow and the square or rectangular pyramidal roofed house [Type B in this nomination]. The double pen, in particular, is one of the oldest types of mill houses and was promoted in D. A. Tompkins' Cotton Mill, Commercial Features. Additionally, all of Huntsville's mill village historic districts, including Lowe, retain their Colonial Revival style Superintendent's or Manager's house. Other architectural styles represented by mill houses or post-mill houses include Craftsman and the Ranch and Minimal Traditional styles. The West Huntsville Baptist Church displays Renaissance Revival influences. The Centre Theater is the district's only Art Deco building. The articulation of these styles is modest in scale and simple in design, reflecting the working class character of the district. Finally, the mill complex itself contains the most intact and well-preserved examples of a mill and its ancillary buildings in Huntsville.

Developmental history/additional historic context information(if appropriate)

Historical Narrative

Lowe Mill was incorporated in 1900. Tracy W. Pratt, the most visible of the so-called "town builders," according to Huntsville historian Patricia Ryan, had brought other textile manufacturing mills to the city, and by the turn of the century, persuaded Arthur Lowe of Massachusetts to locate a mill in Huntsville. Lowe, the fifth mill to be established in Huntsville during the period of the late nineteenth and early twentieth centuries, was located at Ninth Avenue and Seminole Park Drive (now simply Seminole Drive). The initial stock capitalization of \$100,000 was invested in heavily by Northerners, as well as by Southerners, as follows:

Subscriber	\$ Investment	Location of Subscriber
Arthur H. Lowe	10,000	Fitchburg, Massachusetts
George P. Grant, Jr.	10,000	Fitchburg, Massachusetts
J. Harper Poor	20,000	New York, New York
Tracy W. Pratt	5,000	Huntsville, Alabama
Willard I. Wellman	5,000	Huntsville, Alabama
Charles Lane Poor	15,000	Shelter Island, New York
Rodney Wallace	10,000	Huntsville, Alabama
David M. Dillon	5,000	Huntsville, Alabama
J. R. Boyd	5,000	Huntsville, Alabama
A. W. Hunking	5,000	Huntsville, Alabama

The above listing accounts for \$90,000 of the initial capitalization for Lowe Mill. The remaining \$10,000 was probably raised by local investors in small increments (Ryan, 21).

Tracy Pratt and investor Willard Wellman served on the Board of Directors of Lowe, the only Huntsvillians to do so (Perry, p. 185). Pratt met Wellman while they were both attending the University of Minnesota during the 1870s. Soon afterwards, they moved to Sumbrota, Minnesota to enter banking, and later pursued their profession together in Pierre, South Dakota (one account says that Pratt came to South Dakota with his newspaper). Pratt later served on the Pierre City Council, and along with Wellman, went into the insurance business there during the 1890s. By late 1891, they had also reincorporated the North Western Land Association (in which Wells had been a principal) with capital at \$6,000,000 up significantly from its original \$100,000. While its main office was in Pierre, a second office was in Huntsville where the two moved in 1892 (Inv. #188); and by the end of the decade they had formed Lowe Mill (Ryan, 28).

At the same time that the company incorporated in 1900, Tracy Pratt laid out the mill complex as well as housing for its workers. The mill itself was to be situated on nine blocks, which had been donated to the company at the time of incorporation by the West Huntsville Land & Improvement Company in return for Pratt's promise to build a "10,000 spindle mill within the year" on the site (Ryan, p. 2).

Pratt fulfilled his agreement, and in 1901 the south section of the mill was built; four years later, in 1905, the north section was constructed and connected to the earlier portion (Inv. # 325, Photos #1-3; Index to Photographs, HAER Southern Textile Industry Survey, Textile Industry in Huntsville, Alabama, October 1998) With some 250 employees, and using steam power, the mill began producing gingham, shirting, and yarn (Stewart, p.10). In 1903, Lowe expanded its operations substantially when it absorbed Eastern Manufacturing Company, an entity that bleached and dyed, as well as wove and finished, textiles. Within two years, Lowe was operating at 15,000 spindles, and by 1905-1906 it had 25,000 spindles and some 400 employees. Within another year, moreover, there were 900 employees.

By 1908, according to a Sanborn Fire Insurance map, the giant mill complex had electric lights, a pump house, boiler room and engine house, and while one section of the mill operated by steam, the other worked off "hot air." There was a Grinnell Auto Sprinkler system which was fed by a 30,000 gallon capacity water tank, and

water was gotten from a creek just 500 feet from the plant. It also had, typical of mill complexes during this period, its own fire department including five outside double hydrants with a 100-foot long, 2 1/2" diameter hose attached to each (Sanborn Map, 1908).

During this first decade, the company also built housing for its workers in a wide variety of styles. Built adjacent to the mill, the first worker houses were constructed along Ninth and Tenth Avenue. By circa 1910, there were also houses built for managers who reported directly to the superintendent and were responsible for supervising specific tasks, sections or the villages, etc. and were known by locals as "second hands" (McMullen 6-16-03). By then, the original J. C. Brown General Merchandise Store had also been built to serve all of West Huntsville including the residents of Lowe Village. Here, on what is now the westernmost edge of the village along Triana Boulevard, mill workers bought shoes, got haircuts, and sent and received mail. The extant J. C. Brown store (Inv. # 388, Photo #15; constructed circa 1925) served the village until the 1990s (Ibid.).

In 1911 Lowe was bought out by the Hunter Manufacturing Company although it continued to operate under the Lowe name (Ryan). A few years later, in 1914, Lowe let a contract to Baxter Brothers to build two dwellings, one six-room and one eight-room at a cost of \$7,000 (Manufacturer's Record, May 28, 1914), as well as a new \$12,000 warehouse which remains as part of the extant complex (Inv. #215; Manufacturer's Record, September 3, 1914). At the same time, the company built dozens of additional houses.

Perhaps the most striking non-industrial building in all of West Huntsville was finished in 1915. That year, Virginia McCormick (1861-1941), daughter of Cyrus H. McCormick (1809-1884), inventor of the famous McCormick reaper, announced the opening of the West Huntsville YMCA (Inv. #87), which she had funded for the benefit of the residents of West Huntsville, as this area was then known. The two-story stucco building with an arched arcade wing located on Eighth Avenue has historically been known as the "McCormick Y" and also the McCormick Building, in her honor. The building contained two swimming pools which were filled in the 1980s, and it was here that Lowe and other nearby workers showered, watched movies, and participated in company-sponsored tournaments and sporting events including softball, basketball, bowling, tennis, billiards and cards. There was also a full size basketball court inside and a bowling alley. The McCormick Y was the hub of the community and at one point had over 2,000 dues paying members. During World War II, the building was taken over for use as a USO.

During the late 1910s and early 1920s, Lowe Mill continued to build houses, mostly shotgun houses just northwest of the mill along Boardman and Summer Streets, and Seminole Drive. By 1921, there were approximately 200 residences in the village mostly north and west of the mill giving the village an inverted "L" shape; there were few, if any, mill houses north of about 7th Avenue to Governor's Drive except for between Sixth Street SW and First Street SW (Sanborn Map, 1921). By then, there was also a neighborhood playground (Sanborn Map, 1921, 1928), a grocery store, and café immediately west of the mill none of which remain (McMullen). There was also the no longer extant West Huntsville School and several churches only one of which remains, the simple one story Craftsman style West Huntsville Christian Church on 9th Avenue (Inv. # 180, Photo #12).

During the first half of the 1920s, the mill village continued to grow rapidly, but by 1925, the number of employees had decreased from 600 in 1920 to 550. Nonetheless, many new houses and a few stores were built in the continued wide variety of standard mill types, which were scattered rather than concentrated, throughout the village; there were also scattered non-standard bungalows and vernacular styles. In addition to duplexes, there were many single family residences built including some one and one half story styles likely built for skilled and middle managers. Also constructed were one-story single-family Craftsman style bungalows including a large stone veneer bungalow on Sixth Avenue (Inv. #308, Photo #26).

During the 1920s, there were also several stores or commercial buildings built including a stone veneer building (Inv. #s 183) that has been extensively altered in recent years. The company built at least one major

addition to the mill then, a picker room built in 1928 by Gallivan Building Co. of Greenville, South Carolina with J. E. Sirrine & Co. serving as engineers (Manufacturer's Record, July 12, 1928).

Within a few years, however, the Great Depression hit, the numbers of employees declined to 500, and by 1930, the company no longer produced a full range of cotton products, including gingham, shirtings, and chambrays in addition to yarns as it had, but was solely producing "grey goods" or unbleached sheeting (Davidson, 9). Conditions continued to worsen and, by 1932, the company declared bankruptcy (Davidson, 9, and Stewart, 10.). Although it was reorganized again as Lowe Mills, this company too was dissolved in 1936 (Stewart, 10).

During the 1940s, tremendous change came to Lowe Mill Village. In 1945, the Genesco shoe manufacturing company purchased the property and operated a shoe factory on the site until 1978.

In addition to the housing built by the mill company, additional housing had been constructed for mill workers by individuals as rental property prior to 1936. Stylistically, the houses were generally similar to those built for the mill company, but this also accounts for some of the stylistic eclecticism that occurred in the village. After 1936, additional non-mill worker housing was developed, particular in the northern and western portions of the district. This development was likely spurred by the conversion of the former mill into a shoe manufacturing plant in 1945 that employed 800 workers, many who lived in the former Lowe Mill Village. Notable resources from this period include the Art Deco style Centre Theatre (Inv. #387, Photo #14) constructed circa 1945.

Today, the huge mill complex remains intact and is used for a variety of civic and cultural endeavors, and the adjacent village retains a very strong sense of setting, location, and planned form.

Verbal Boundary Description (describe the boundaries of the property)

The boundaries of the Lowe Mill and Mill Village Historic District are indicated on an accompanying scaled map. The map was based on information obtained from U.S.G.S. topographic maps, county tax assessor, and U.S.G.S. satellite images.

Boundary Justification (explain why the boundaries were selected)

The boundary includes the portions of the former Lowe Mill and Mill Village area that retain sufficient integrity to convey a sense of the historic time and place of the district.

Lowe Mill Village Historic District
National Register Nomination

Owners of private properties nominated to the National Register have an opportunity to concur in or object to listing in accord with the National Historic Preservation Act and 36 CFR 60. Any owner or partial owner of private property who chooses to object to listing may submit to the State Historic Preservation Officer a notarized statement certifying that the party is the sole or partial owner of the private property and objects to the listing. Each owner or partial owner of private property has one vote regardless of what part of the property that party owns. If a majority of private property owners object, a property will not be listed; however, the State Historic Preservation Officer shall submit the nomination to the Keeper of the National Register for determination of eligibility for listing in the National Register. If the property is then determined eligible for listing, although not formally listed, the only result is that federal agencies will be required to allow the Advisory Council on Historic Preservation an opportunity to comment before the agency may fund, license, or assist a project which will affect the property. If an owner chooses to object to the listing of the property, the notarized objection must be submitted to the Alabama Historical Commission by April 27, 2011.

Please send your comments on whether the property should be nominated to the National Register to our National Register Coordinator, Susan Enzweiler, at the above address shown on the letterhead prior to the April 28, 2011 meeting. If you have any questions or comments on the nomination process, please contact me at 334/230-2667.

Very truly yours,

Elizabeth Ann Brown
Deputy State Historic Preservation Officer

National Register of Historic Places Fact Sheet
CRITERIA for Historic Significance

The National Register is part of a nation-wide policy to identify, evaluate, and protect our historic resources. The program was created in 1966 when the National Preservation Act made the Secretary of the Interior responsible for maintaining the official list of historic buildings and sites important to our local, state, and or national history. National Register eligibility includes historic and architectural resources that reflect all facets of American life, especially those that are locally significant. The following criteria were written broadly to recognize the wide variety of historic properties associated with our history. The criteria should be used when preparing a National Register nomination, seeking a determination of a property's eligibility for the NR, or planning a preservation project.

The quality of significance in American history, architecture, archaeology, and culture is present in districts, sites, buildings, structures, and objects that possess integrity of location, design, setting, material, workmanship, feeling, and association, and fall under at least one of the following criteria (A, B, C, and/or D): properties that

- A. are associated with activities, events, series of events, or patterns of an area's development that have made a significant contribution to the broad patterns of our history (Agriculture, Education, Commerce, Social History); and/or
- B. are associated with the lives of significant persons in our past that represent the property most directly associated with the person's important contribution to our past (Politics, Medicine); and/or
- C. embody the distinctive characteristics of a certain building form, architectural style, engineering technique, period of physical development, use of material, or method of construction that shaped the historic identity of a property or area (Architecture, Community Planning, Engineering); and/or
- D. have yielded or may be likely to yield information important in prehistory or history (Archaeology).

Certain kinds of properties ARE NOT USUALLY CONSIDERED FOR LISTING in the National Register: cemeteries, birthplaces or graves of historical figures, properties owned by religious institutions or used for religious purposes, buildings that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the last 50 years. Such properties will qualify if they are integral parts of districts that meet the criteria OR if they fall within the following categories:

- A. a religious property deriving primary significance from architectural or artistic distinction or historical importance; or
- B. a building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or
- C. a birthplace or grave of a historical figure of outstanding importance if there is no other appropriate site or building DIRECTLY ASSOCIATED with his or her productive life; or
- D. a cemetery that derives its primary significance from distinctive design features, from graves of persons of transcendent importance, from age, or from association with historic events; or
- E. a reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and WHEN NO OTHER building or structure with the same association has survived; or
- F. a property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance; or
- G. a property achieving significance within the past 50 years if it is of exceptional importance.

Alabama Historical Commission, 468 South Ferry Street, Montgomery, Alabama, 36130-0900, 334.242.3184.

ALABAMA HISTORICAL COMMISSION
National Register of Historic Places Fact Sheet
What it Does and Does Not Mean?

The National Register Does:

1. Identify historically significant buildings, structures, sites, objects, and districts, according to the National Register Criteria for Evaluation.
2. Encourage the preservation of historic properties by documenting their significance and by lending support to local preservation activities.
3. Enable federal, state, and local agencies to consider historic properties in the early stages of planning projects.
4. Provide for review of federally funded, licensed, or sponsored projects which may affect historic properties.
5. Make owners of historic properties eligible to apply for federal grants-in-aid for preservation activities.
6. Encourage the rehabilitation of income-producing historic properties which meet preservation standards through tax incentives; discourage the demolition of income-producing properties through tax disincentives.

The National Register Does Not:

1. Restrict the rights of private property owners in the use, development, or sale of private historic property.
2. Lead automatically to historic district zoning.
3. Force federal, state, local, or private projects to be stopped.
4. Provide for review of state, local, or privately funded projects which may affect historic properties.
5. Guarantee that grant funds will be available for all significant historic properties.
6. Provide tax benefits to owners of residential historic properties, unless those properties are rental and treated as income-producing by the IRS.

RE: National Register Nomination for the Lowe Mill Historic District, Huntsville, Madison County

Dear Mr. Cunningham:

The Alabama Historical Commission is pleased to inform you that the Lowe Mill Historic District was listed on the National Register of Historic Places by the U.S. Department of the Interior on June 24, 2011. By copy of this letter we are notifying local public officials and concerned citizens.

The National Register of Historic Places is the official list of the nation's cultural resources worthy of preservation. Authorized under the National Historic Preservation Act of 1966, the National Register is part of a national program to coordinate and support public and private efforts to identify, evaluate and protect our historic and archaeological resources.

If you have any questions regarding this matter, please do not hesitate to contact me at 334/230-2667.

Very Truly Yours,

Elizabeth Ann Brown
Deputy State Historic Preservation Officer

RE: National Register Nomination for the Lowe Mill Historic District
Huntsville, Madison County

Dear Mr. Cunningham:

I am pleased to inform you that the Lowe Mill Historic District in Huntsville (Madison County), Alabama is to be considered by the Alabama National Register Review Board for nomination to the National Register of Historic Places on April 28, 2011. The National Register is the official national list of historic properties worthy of preservation. Listing in the National Register provides recognition and assists in preserving our nation's heritage. Enclosed is a copy of the National Register nomination and the criteria under which properties are evaluated.

Certified local governments have certain National Register notification responsibilities. Within 30 days of notification, the local historic preservation commission and the chief local elected official should transmit to the Alabama Historical Commission their opinion as to whether or not the property meets the criteria for listing in the National Register. This opinion shall constitute formal comment by the certified local government and may be as simple as an affirmative statement that, in their opinion, the property meets the criteria for listing in the National Register. However, if in their opinion the property does not meet the criteria, reasons for that opinion should be stated.

During the 30-day period, the certified local government must provide a reasonable opportunity for public comment. The measure to be taken by each certified local government would be determined by mutual agreement between the local government and the Alabama Historical Commission.

In the event that both the local commission and the chief local elected official separately determine that the property meets the criteria for listing to the National Register and recommend the property to be considered for nomination, the nomination process continues. If the local commission or the chief local elected official determines that the property does not meet the criteria for listing in the National Register, the nomination process continues. If both the local commission and the chief local elected official determine that the property does not meet the criteria for listing in the National Register and recommend the property not be nominated, the Alabama Historical Commission shall take no further action on the proposed nomination. However, if a third party files a written appeal with the Alabama Historical Commission, the nomination process must continue.
